

PhoenixTalk

Phoenix **Talk** allows you to be **mobile**, yet still remain **connected** with your office.

Communicate instructions, notes or dictation that can be sent to a chosen assistant or office within **seconds**.

This is a time saver! **It's just that simple.**

Easily record, review and edit dictation

Securely upload from any internet access

Add a subject, worktype and more

Save dictation to complete at a later time

Works with iChannel Express, Phoenix Server, Dragon, email and other dictation vendors

Compatible Devices

Android Phone and Tablet

Apple iPhone and iPad

Optional Features

Automated work schedule import: Simply tap and dictate, and the subject is attached to your dictation for processing

Receive your processed documents for review, edit and sign within Phoenix Talk
